Rosemary: Advocate for PEACE!

After many years serving those in need,

No relaxing retirement – rather, she would lead.

Rosemary began a whole new vocation –

The Citizens for Peace Director of Education!

Right from the start back in 2003,

A founding member, along with Colleen.

Always demonstrating the greatest of care,

Rosemary Doyle has always been there.

Her ideas helped shape the organization,

In advocacy for peace, the best in the nation:

Standing for restorative practices in schools,

To give our children community building tools.

Protecting the environment – pristine and priceless,

From nuclear waste, ghastly and mindless.

Nonviolent Communication: A Language of Life,

For clearer connection, a reduction of strife.

The Season for Nonviolence,

And Random Acts of Kindness.

Ideas Rosemary has long promoted –

And oh, please make sure you all have voted!

Maybe no more enduring legacy

Rosemary's famous bibliography!

Downloaded across the world, from Russia to Iran,

A font of information for peacemakers to act upon.

Rosemary: for justice and peace an advocate unshakable,

The value of her work: breathtaking, unmistakable!
